BRAND GUIDELINES · V1 · OCTOBER 2026

FriendTech Ventures

Logo

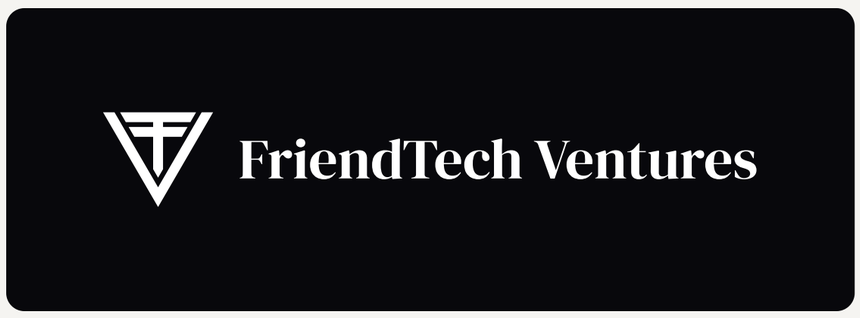

The system pairs a geometric mark with a serif wordmark. The mark is a V-shaped triangle carrying an F and T; its outer edge is one clean triangle, so it holds up from a 32px favicon to a slide banner. Always keep contrast high and give the logo clear space equal to one bar height on every side.

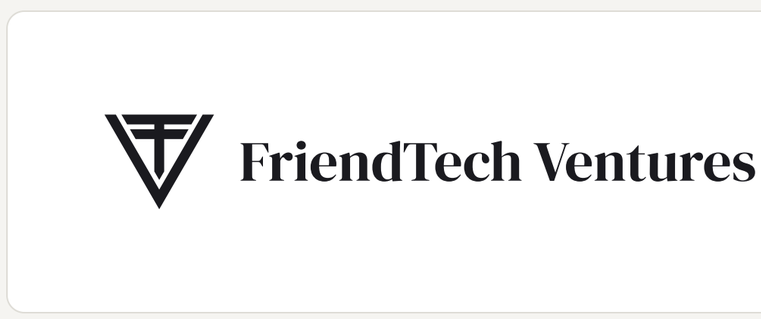

PRIMARY LOCKUP

Mark plus wordmark, side by side. Use it whenever there is room for the full name.

BEST FOR

- Website header
- Proposals and decks
- Email signature
- LinkedIn banner

BACKGROUND ADAPTABILITY

Dark backgrounds: use the light version on Night or dark photography.

Light backgrounds: use the Ink version on Paper or white.

DON'T

- Recolor the mark in Violet
- Add gradients, glows or shadows to the flat mark
- Stretch, rotate or outline it
- Place it on busy images without a solid panel

SYMBOL-ONLY

Use the mark alone where the name already appears nearby or space is tight.

- LinkedIn company page and profile icons
- Favicon and app icon
- Social avatars (square or circle crop)

SIGNATURE VERSION

The silver dimensional mark is kept for large, single moments such as a deck cover or banner. Use the flat mark everywhere else.

Color usage

PRIMARY COLORS

#08080C
Night

#F5F4F1
Paper

#8B7EC8
Violet (dark)

#6B5EB0
Violet Deep (light)

SECONDARY TINTS

#C4A0F7
Lilac (dark)

#9474D4
Orchid (light)

#12111B
Muted 8% (dark)

#EAE8EC
Muted 8% (light)

NEUTRALS

#1A1A1F
Ink

#E8E6E1
Bone

#1E2124
Graphite (icons)

#6B6A72
Steel

#DEDCD6
Mist

WHY VIOLET

Violet is already the accent on friendtechventures.com, so the brand and the site match. It sits between the trust of blue and the energy of a warmer color, and it fits the cool silver of the mark.

Use it sparingly for links, buttons and highlights. On light backgrounds, use Violet Deep for text.

RECOMMENDED USAGE

Dark theme background	#08080C
Light theme background	#F5F4F1
Links, CTAs on dark	#8B7EC8
Links, CTAs, accent text on light	#6B5EB0
Hover, highlight on dark	#C4A0F7
Hover, highlight on light	#9474D4
Muted panels, tags (8%)	#EAE8EC
Body text on light	#1A1A1F
Body text on dark	#E8E6E1

Typography

Aa

DM Serif Display

Wordmark and headings

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789

A high-contrast display serif with confident, editorial letterforms. It gives FTV the voice of an established advisor rather than a startup template, and it matches the headings on friendtechventures.com.

01 Wordmark: DM Serif Display Regular
02 Headlines: DM Serif Display Regular, 32px and up
03 Pull quotes: DM Serif Display Italic

Practical AI for businesses that run on people.

Aa

Instrument Sans

Body and interface

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789

A contemporary sans with open, slightly humanist forms. It stays clear in long proposals, on screens and at small sizes, and its quiet tone lets the serif and the mark lead. It is the body face on friendtechventures.com.

01 Body text: Regular 400, 16–18px
02 Subheads: SemiBold 600
03 Captions: Regular 400, Steel
04 Buttons and labels: SemiBold 600

We map how work actually gets done, then build the AI systems and automations that give the hours back.

WORDMARK TYPOGRAPHY

The wordmark is set in DM Serif Display Regular in title case, with no tracking changes and converted to outlines. Always use the supplied files rather than retyping it.
